Lancer le PODCAST #1 (a)

Introduction du Pack [Phoenix] Cinema & LIFE :

In a galaxy, far, far away... well, actually, not *that* far away... there was this girl who decided to change the world! Well, not quite. Well, okay, basically, she decided to be a teacher, but she wanted to make a difference. She entered the Matrix (L'URSSAF) and decided to create language programs that would help people get better at English.

She loved movies and TV series. She wanted to help people understand their favorite movies. It was more than a job, but less than a prophecy I admit.

She had no superpowers, but where there is a will, there is a way. So, she found a way to make it happen, and thus, found her way to happiness. All she needed to do was create, teach and help others.
